Phoenix heavy music with an unusually built world.
Art-damaged hardcore shaped into horror-mythic album architecture.
Music and visuals built for games, film, trailers, and installations.

SHORT BIO

Ghost Orgy is a Phoenix-based experimental post-hardcore project by Jack Dyer. The sound sits near Refused, Give Up the Ghost, The Blood Brothers, early mewwithoutYou, Modern Life Is War, and The Sound of Animals Fighting, then folds that pressure into horror-mythic world-building and damaged, die-fi texture.
